The bearer Hannah Fisher appears a decent old woman, & from a certificate she has from Dr Rush, & another from a Mr Wm Kirk; I believe her to be an honest worthy woman; she appears to be incapable of doing hard work, from a hurt she received in her arm, & from the Rheumatism. She says during her husbands life time they had a Pew in Christ Church, but that she now sits in the middle ile facing the reading desk— If you could spare her a [illegible] the Church money I think it would be well applied
